

## Choosing Your Praxis Test Date and Time

---

### Overview

When and how you schedule your Praxis test depends on two key factors:

- The **type of Praxis Test** you're taking (some are offered year-round, others on specific dates)
- Whether you choose to test **at a Test Center or at home**

This guide walks you through the steps to view available test dates and times during the registration process.

---

### When Can You Choose a Date?

You will select your test date **after you begin registering for a Praxis test**. Test availability is shown **only after you've selected the test name** and the delivery format (At Home or Test Center).

 *You must be signed in to your Praxis account to see date and time options.*

---

### How to Choose Your Test Date and Time

Follow these steps to select a test date and time during registration:

#### **Step 1: Sign In to Your Praxis Account**

Go to [praxis.ets.org](https://praxis.ets.org) and sign in with your username and password. If you're new to Praxis, create an account first.

#### **Step 2: Start the Registration Process**

Choose your test; add it to your cart and begin the checkout process.

#### **Step 3: Select Test Delivery Format**

After filling in the basic details, you will end up on the Schedule page in the checkout flow. Choose whether you want to take your test **At Home** or **At a Test Center** (depending on your test's availability).

#### **Step 4: Enter Your Preferred Location**

If testing at a Test Center, enter your city or ZIP code to find nearby locations.

If testing at Home, choose your Time Zone to view available dates and times.

#### **Step 5: View Available Dates and Times**

Once you've selected a location (or confirmed At Home delivery), you'll be shown a calendar with **available test dates and appointment times**.

#### **Step 6: Select the Slot and Complete Registration**

Choose a convenient date and time, then proceed to **checkout and confirmation**.

 You'll receive an email confirmation with the test details after registration is complete.

---

#### **Things to Keep in Mind**

- **Some tests are not offered every day.** Check the [TestAvailability-AtHome](#) and [TestAvailability-TestCenters](#) for month-wise scheduling info.
  - **Seats fill up fast**—especially during peak testing seasons. We recommend scheduling early.
  - **You can reschedule** your test later, but fees and policies apply. Always review rescheduling rules before finalizing.
-
